SONG NOTES

The verse "Be still..." from Psalm 46, sometimes heard as a command of God, is really more of an invitation by God to crawl up into the lap of our Maker, just as a child crawls into the loving arms of a mother or father. This song sets aside our perspective of God as judge, and replaces it with God as pure embraceable love.

This piece would be appropriate for celebrations whose themes focus on peace, justice, comfort, trust or protection. In particular, it could be used during services of remembrance (such as the tragedy of September 11, 2001), reconciliation or during Lent.

Lena Gokelman and David Kauffman
